

The VT product line is a folded compact subwoofer enclosure. It provides an extended bass, and has the capacity to throw LOW end a great distance. This product line has been manufactured with the understanding of mobility allowing it to be transportable from location to location with ease.

This versatile product line can be used as a multi-purpose system, allowing for expansion.

Features & Benefits

- Patented cooling system for voice coil and Neodymium Magnet
- 100% Waterproof speaker cones and surround
- Hand built crossovers, 400-volt capacitors , air cooled resistor placement
- Folded horn subwoofer enclosure

SPECIFICATIONS

Dimensions (H x W x D)	30 -inches x 21.375 -inches x 30 -inches
Net Weight	118 lbs
Components	18 -inch LF driver with 4 -inch voice coil
Frequency Response	N/A
Sensitivity (1w/1m)	LF: 99 dB;
Maximum SPL	101 dB continuous
Power Handling	LF : 1000 watts - r.m.s. ; 2000 watts - program
Nominal Impedance	LF: 8 ohms; Overall: 8 ohms
Dispersion	N/A
Crossover	Passive; Custom configurations
Construction	11 ply birch finished with 2-part Epoxy Cambel Finish - Hand rolled - 100 lb pressure
Enclosure	Folded Horn Subwoofer
Protective Grille	16-gauge metal grille with acoustic foam
Connectors	Dual Nuetrik connector jack plates
Wiring	16 gauge wiring

*LF = Low-range Frequency; MF = Mid-range Frequency; HF= High-range Frequency;

*All cabinets have an overall nominal impedance of 8 ohms;
